Course Description

The Mayer Middle School 6th Grade Choir class is referred to as “Glee Club.” The class will introduce students to basic skills of reading music, singing, and performing in an ensemble. There are 4 required concerts throughout the year, one each quarter. There is a concentration on 2-part harmony singing and developing proper vowel sounds and tone production. Participation is open to all students regardless of previous experience.

Music Program Philosophy

Music education in the Fairview Park City Schools seeks to provide experiences so the individual student may develop into a complete person capable of feeling and/or expressing emotion through music.

These experiences should enable the learner to distinguish between various quality levels of musical encounters, learn the necessary ingredients of both individual effort and teamwork, and begin a worthwhile life skill that can contribute to society in a responsible manner.

The Fairview Park Students will be creating, innovating, investigating, collaborating, communicating, problem solving, leading, reflecting, and serving through music in alignment with the district’s vision and mission, The Fairview Advantage.

Program Goals for Grades 6 - 8:

- Analyze, practice and perform a musical selection independently or collaboratively with technical accuracy and expression.
- Read, write, improvise and describe music using standard musical notation and vocabulary.
- Apply problem-solving and critical thinking skills to music listening and performing by adapting music to fit the context, story, setting and medium.
- Classify and describe composers and historical musical periods, including classical, popular and traditional American music and musical and cultural blends.
- Compare and contrast ways that the subject matter in musical selections relates to other disciplines.
- Expand the use of technology and the media arts through music research, composition and performance.

Evaluation

Assessment will be balanced with different types of assessment for various purposes to ensure that the written, taught and tested curricula are aligned. Diagnostic assessment will occur prior to instruction and will be used to determine students' strengths and weaknesses in a particular area in order to place them into appropriate levels of instruction and/or to differentiate instruction accordingly. Formative assessment will occur during the learning process and will be used to monitor students' progress toward meeting instructional objectives and goals. These formative assessment results will aid teachers in making instructional decisions for intervention, enrichment and lesson improvements. Summative assessment will occur after an instructional sequence to determine the extent to which students have met their instructional goals or objectives. These assessments will also enable teachers to communicate results and level of mastery to students, parents and other members of the school community. These results will also

be used to evaluate and improve the effectiveness of instructional activities and assessment measures as well as the overall curriculum.

These multiple means of assessment might include paper-and-pencil tests, portfolios, open-ended questions, performance-based assessments, individual and group projects, extended reading and writing experiences that include rough drafts and revisions, teacher observations, self- and peer-assessment and conferencing. Assessments will be based on clearly stated expectations, criteria and standards for rating.

Specific forms of evaluation may include, but are not limited to:

- Formal and informal observation
- Quizzes and Tests
- Performance rubrics
- Written products
- Visual Displays
- Public performance
- Digital portfolio
