[MESSAGE FROM THE SUPERINTENDENT]

LEARN DIFFERENTLY CARE DEEPLY ASPIRE TO EXCELLENCE

We celebrate those at the Fairview Park City Schools who are so passionate about our students, our families, and our community as they bring the District's vision of being "A Community United" to life in all they do each day. From 18 months to 18 years-old and beyond, we take great pride in fulfilling the rest of that vision statement to "empower each other to learn differently, care deeply, and aspire to excellence."

Throughout the pages that follow, you'll see those "points of pride" — student academic and athletic achievement, national recognition, opportunities to serve our community, and more.

We are very proud to have been a 1-to-1 technology district for over 10 years. This past year students took their learning to the next level with MacBooks for students in grades 6-12 and iPads for students in K-5.

We were also pleased to welcome many visitors from districts and organizations around the state who are interested in knowing more about our personalized, project-based learning approach K-12.

Over the next year, our school community can expect:

- a renewal of our Strategic Plan, incorporating results of the spring 2018 biennial community survey, and feedback from the many student, parent and community informational sessions and focus groups held over the past few years.
- additional engagement and informational opportunities for families, streamlined communications tools for parents, expanded gifted programming, and improved student services for all children PreK-12.
- dramatic improvements to our facilities that will provide increased safety for our students and staff while creating 21st century learning environments for our 21st century learners.

Thank you for your continued confidence and support as we "empower each other to learn differently, care deeply, and aspire to excellence". Together, as "A Community United", we make Fairview Park a great place to learn and grow.

Dr. Bill Wagner
Superintendent
Fairview Park City Schools

BOARD OF EDUCATION

[ABOUT OUR DISTRICT]

OUR VISION

A community united, empowering each other to learn differently, care deeply, and aspire to excellence.

OUR MISSION

We will provide our students with **The Fairview Advantage**, a framework for student success, by delivering exceptional services and academic programs that challenge the mind and instill the joy of learning and responsible citizenship.

OUR GOALS

LEARNING Ensure that our offerings, tools, and instruction methods work together to develop the knowledge, skills, and abilities necessary for each child to be successful.

READINESS Establish a personalized path for each student that allows him or her to move fluidly from pre-K to their post-graduation opportunities.

RESOURCES Identify and articulate the resources needed to meet the district's goals and prioritize the management of the resources provided.

ENGAGEMENT Integrate the district with the Community to ensure awareness and active participation in the education process.

The Fairview Advantage Student Skills profile (above) is a set of nine unique attributes that set our students apart in preparation for success beyond high school.

DISTRICT QUICK STATS

For the 2017-18 school year

1783

Enrollment of students in grades K - 12

573

Bus riders, including students from local parochial schools

280,830

miles driven by buses annually

28%

percentage of students receiving free or reduced meal benefits

[DISTRICT FINANCES]

GENERAL FUND 2016-17 REVENUE SOURCES

Local Property Taxes:

\$15,584,388

Taxes levied by the district on the assessed valuation of property located within the Fairview Park School District.

State Funds: \$5,054,814

Money received through the state based on their foundation formula. This includes money for special education and transportation.

Other: \$1,280,409

Includes interest income, rentals and various fees.

November 2018

LEVY RENEWAL INFORMATION

Voters will be asked to renew (no overall increase in taxes) a long-standing operating levy in November of 2018.

The ballot language will read "emergency levy" but there is no emergency. "Emergency" levies raise a flat dollar amount instead of a specific millage rate.

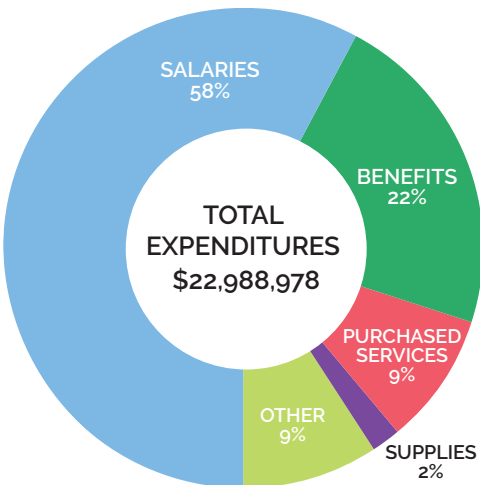

November's levy will be for operating funds —funds for paying the bills. This is different from the bond and permanent improvement levy passed in November 2016, which can only be used for construction and renovation.

The passage of this renewal levy will be **critical to help extend the current operating budget** to the year 2020, effectively stretching the 5 -Year Community Promise from the levy campaign back in 2006 for over 14 years!

However, because the District will have functioned on this fixed income for the past 14 years, we anticipate having to ask residents to consider a moderate increase in November of 2020.

For more information, visit www.fairviewparkschools.org

EXPENDITURES

Salaries: \$13,424,056

Salary and wage payments for District employees.

Benefits: \$4,990,493

Health Insurance, pension, workers' compensation and Medicare tax payments for District employees

Purchased Services: \$2,154,840

Professional services, maintenance, and utilities.

Supplies: \$455,254

Instructional supplies, materials, textbooks, maintenance supplies and fuel.

Other: \$1,964,335

Advances and transfers to other funds.

BUILDING FOR THE FUTURE

Groundbreaking ceremony kicks off district construction project at Lewis F. Mayer Middle School and Fairview High School

On Wednesday, May 23, board of education members, district staff and administrators, city officials, students, community members, and project engineers and architects joined together to break ground on the site of the Lewis F. Mayer Middle School expansion/renovation and remodel of Fairview High School. The community passed a \$35.2 million combined bond issue and permanent improvement levy in November 2016 to renovate the middle and high schools and make upgrades to Parkview Early Education Center and Gilles-Sweet Elementary.

Superintendent Dr. Bill Wagner, Board President Joe Shucofsky, and Fairview Park Mayor Eileen Ann Patton welcomed guests to the occasion which marks a significant partnership which began more than a decade ago with the Gemini Project.

From left: Michael Matthews, Director of Operations, Fairview Park City Schools; Mayor Eileen Ann Patton, City of Fairview Park; Raymond Mohr, Principal, Lewis F. Mayer Middle School; Joslyn Dalton, Board Member; Joe Shucofsky, Board President; Kellie DuBay-Gillis, Board Vice President; Christopher Vicha, Principal, Fairview High School; Kimberly Sperling, Treasurer, Dr. Bill Wagner, Superintendent

Tentative Construction Timeline

Phase 1

June - October 2018

- Middle School Gym
- Roofs/Roof patching
- New Elevator Shaft
- 1st Floor Front Entrance/ Office Area
- 1st and 2nd Floors - Southwest
- New Mechanical Room
- Middle School Addition

Phase 2

November 2018 - March 2019

- Complete Middle School Addition
- 2nd Floor - West
- 2nd Floor - Northwest

Phase 3

April - August 2019

- 1st floor - Northwest/ Northeast/Athletics
- 2nd floor
- Demolition of courtyard/cafeteria
- Stack/boiler house demo and backfill
- Exterior Wall Build-out - Courtyard

Phase 4

September 2019 - March 2020

- Courtyard Landscaping
- 1st and 2nd floors - core
- 1st floor - kitchen

THE POWER OF A PROMISE

Fairview High School selected as one of the first 'Because I said I would' chapters, featured on NBC's 'Today'

Fairview High School is one of the first three high school chapters of 'because I said I would,' a global social movement and non-profit organization dedicated to the betterment of humanity through promises made and kept.

The organization's founder, Lakewood resident Alex Sheen, shared his inspirational story and introduced the mission of 'because I said I would' to students on November 27, 2017 during an all-school assembly.

Since the chapter launch, students have been working together to lead, promote, and run the chapter in their school and plan unified charitable promises and act as an accountability support group for their peers.

When the 'Today' show reached out to Sheen to film a segment highlighting his organization on 'Megyn Kelly Today' on New Years Day 2018, he selected FHS as the backdrop. Six students bravely shared their own personal promises with a national audience.

**because
I said
I would.**

Learn more and watch the segment featuring FHS students at www.becauseisaidiwould.com

Above: Students at Fairview High displayed their promise cards throughout the school.

Left: As seen on TV: 'Today' show producers film a segment in the Innovation Center at Fairview High School as students display their promise cards.

Service Learning Actualizes the 'Fairview Advantage'

Above: Jamie Buxton, Volunteer and Intern Services Supervisor at Laura's Home women's shelter, visited Gilles-Sweet while students were assembling the snack bags.

Right: Members of student council delivered over 2,700 snack bags to The City Mission.

In December, Gilles-Sweet Elementary partnered with The City Mission of Cleveland for a giving project that provided some of the 2,000 homeless children living in Cleveland with after school snacks when they come "home" to The City Mission shelter or Laura's Home Crisis Center.

The 675 students in grades 1-5 collected over 3,000 gallon-size zip-loc bags, 2,717 fruit snacks, 3,210 snack bars, and 2,700 bottled water/ juice boxes to make up over 2,700 snack bags. Students also included a personal card or drawing in the bags with uplifting messages.

Jamie Buxton, Volunteer and Intern Services Supervisor for the City Mission visited the students while they packed the snack bags. "Their willingness to meet a basic need in creating snack bags for kids in need turned into an amazing passion that led their entire school into the efforts," she said. "It's so evident that these students not only participated but took ownership of this need and will become future citizens that understand that importance of compassion and generosity."

Gilles-Sweet Principal Barb Brady added, "This project really brought such a positive, feel-good type of experience for our students, families, staff and teachers. It was really well received."

WRITE ON, WARRIORS!

Mayer Middle School Students Qualify for Statewide PenOhio Competition

The Lewis F. Mayer Middle School Power of the Pen team competed at the State PenOhio Tournament at the College of Wooster in May 2018 after qualifying at the regional level.

PenOhio is a writing league comprised of public, private and parochial schools across Ohio who want to see great literary talent inspired, challenged, and rewarded. FPCS aligns its teams to be anchored throughout Ohio's Extended Writing and Reading Standards. The advisors challenge the students to bring their writing to life through a rich, socially-engaging experience.

Fairview Park City Schools named a distinguished district for STEM and career learning

The Fairview Park City School District has been recognized as a Project Lead The Way (PLTW) Distinguished District for providing broad access to transformative learning opportunities for students through its PLTW programs and partnership with Polaris Career Center. It is one of just over 30 districts across the U.S. to receive this honor.

PLTW is a nonprofit organization that serves millions of K-12 students and teachers in over 10,500 schools across the U.S.

The PLTW Distinguished District recognition honors districts committed to increasing student access, engagement, and achievement in their PLTW programs. To be eligible for the designation, Fairview Park City Schools had to have had 20 percent or more of its students in each grade, K-12, participate in a PLTW program during the 2016-17 school year.

Through PLTW programs, students develop STEM knowledge as well as in-demand, transportable skills that they will use both in school and for the rest of their lives, on any career path they take. As PLTW students progress through grades K-12, they are empowered to engage in problem solving and process thinking, develop technical knowledge and skills, build communication skills, and explore career opportunities.

The Fairview Park City School District currently offers PLTW Gateway at Mayer Middle School (6-8) with courses such as Design and Modeling, Automation and Robotics, App Creators, and Medical Detectives as well as PLTW Engineering and Biomedical Science courses offered at Fairview High School.

COOL SCHOOL

Fairview High School was voted a Fox8 News 'Cool School' during fall semester. The segment highlighted academics, athletics, and extra curricular programs.

View the behind-the-scenes video at [YouTube.com/fpcschools](https://www.youtube.com/fpcschools)

Beginning in the 2018-19 school year, additional career tech programs will be added at the middle school level, including Robotics.

FORGING COLLABORATION

Second Graders Collaborate with Engineers at Arconic Engineered Structures Cleveland to Create Prototype Propellers

Students in Lauren Scotta's second grade class at Gilles-Sweet Elementary had the opportunity to put S.T.E.M. into action as they worked alongside engineers at Arconic Engineered Structures Cleveland and were mentored in the basics of aluminum propeller forging design.

Over several months, the engineers and students collaborated via a virtual classroom and used video chat to communicate with five engineers during which students asked questions about engineering, propeller materials and how to test their designs.

During their visit to Arconic in Cleveland, the students displayed their propeller designs on tablets to the engineers, described their designs and created commercials about their projects. The engineers marveled at the similarities between the student's propellers and those Arconic forges for single-engine private planes.

"The five engineers involved were more excited about the students' projects than the students," said Cary Dell, Arconic Cleveland Communications Manager. "The engineers 3D printed a small propeller to test their motor control software and made sure the motor's horsepower would drive the propellers. On test day, all systems were go. It was a great experience for everyone."

Above: Students demonstrate their propeller designs and promotional videos to Arconic engineers.

Left: Students' 3-D propeller designs are tested with a small motor by an Arconic engineer.

A STRONG FOUNDATION

Parkview Early Education Center Receives 5-Star 'Step Up to Quality' Rating from Ohio Department of Education

The Parkview Early Education Center was awarded the highest Step Up to Quality rating — 5-Stars — from the Ohio Department of Education in March 2018.

Step Up To Quality (SUTQ) is a tiered quality rating and improvement system administered by the Ohio Department of Education and the Ohio Department of Job and Family Services.

SUTQ recognizes and promotes learning and development programs that meet quality program standards that exceed preschool licensing health and safety regulations. Step Up To Quality program standards are based on national research identifying standards which lead to improved outcomes for children.

The Parkview Early Education Center serves children from ages 18-months to Pre-K and is also the location of the district's tuition-free Kindergarten program.

BREAKFAST OF CHAMPIONS

Gilles-Sweet Elementary Recognized as a "Rising Star" in School Breakfast Challenge

It's no secret that breakfast is the most important meal of the day. Research shows that eating breakfast can improve attendance, behavior, classroom participation, and concentration as well as decrease anxiety, tardiness, and school nurse visits.

The food service department at Fairview Park City Schools provides breakfast at each school building daily, and wanted to encourage more students to have a healthy start to the day.

Food service leader Diana Hill implemented a breakfast cart on the school's second floor where fourth and fifth grade classrooms are located. This made a big impact as students could "grab-and-go" and take a breakfast to their classroom, resulting in a 36% increase in students eating breakfast at school over the previous school year.

The increase earned the school a "Rising Star" award in the Ohio School Breakfast Challenge, which is part of the School Breakfast Program, a federal child nutrition program administered by the Ohio Department of Education (ODE) and the United States Department of Agriculture (USDA).

Above: A student enjoys breakfast, complete with a fresh smoothie, before school.

Left: The grab-and-go breakfast cart.

NUTRITION SERVICES

Eligible Fairview Park City Schools students can receive free or reduced-price meals and other benefits. Learn more about the program and how to access an online application at www.fairviewparkschools.org

HATS OFF TO STUDENT CREATORS

FHS Students Win Hyland's High School Innovation Showdown, Scholarships

Three Fairview High School seniors won first place in the 2017 Hyland Software High School Innovation Showdown with their idea called "H.A.T.S. — Horizontal Aerodynamic Turbine System." They each received a \$500 scholarship.

The team consisting of seniors Zack, William, and Damion presented a mock-up prototype at Hyland's headquarters

in Westlake on Saturday, November 11 in front of a panel of Hyland judges. They were one of seven teams that made it to the final round after an essay and video competition.

Hyland tasked students to use their creativity to come up with an innovative concept that could solve a real-world problem.

The Fairview team's horizontal turbine can use wind from any direction and multiple modular turbines can be stacked together to increase the efficiency per space. Their mock-up turbine takes up only 350 square feet as opposed to traditional turbines which take up 250 acres per 20 turbines.

Above: A prototype of the Fairview High School team's "H.A.T.S. — Horizontal Aerodynamic Turbine System."

"The team focused on taking old technology and blending it with new to create a more efficient version of a wind turbine," explained Mr. Chris Kaminski, FHS digital media teacher. "They took technology from a helicopter blade, flipped it and made it stackable. Its footprint takes up only a fraction of traditional wind turbines."

Senior Exit Interviews Showcase Learning Journey

According to a recent article from *The Atlantic*, colleges are looking beyond test scores and transcripts and are looking for evidence that students can apply skills that “standardized tests don’t measure very well, if at all” — the ability to work in teams, communicate, and solve problems — and a way to distinguish students among other high-achievers.

As a part of the readiness goal of the district’s strategic plan, the Fairview Park City School District developed the Student Skills Profile in 2015 to include nine skills that graduates should strive to embody upon graduation — the ability to create, innovate, investigate, collaborate, communicate, solve problems, lead, reflect, and serve.

Each student at Fairview Park City Schools has a digital portfolio to house their personal learning journey. Students use a blog platform to post written content, photos, videos and other media. They tag their posts with one or more of the student skills, also known as “The Fairview Advantage.”

This process forms the foundation of their presentation and conversation with their Senior Exit Interview panel.

For the second year, graduating seniors presented their portfolios to panels made up of teachers, administrators, community members, and alumni.

Leading up to senior year, students complete the “Junior Experience” and add an entry to their portfolio on their experience visiting college campuses or participating in a job shadow.

This process is critical so students can stand out in the crowd for their accomplishments in all areas of their educational journey.

Above: Standout Seniors Nick, Robert, Cosette, and Anne presented their digital portfolios at the 2018 State of the Community event at the Gemini Center.

Above: FHS Associate Principal Chris Honeck (left) and Principal Chris Vicha were invited to give a presentation on the Junior Experience and Senior Exit Interview process to the State Board of Education in May 2018.

TAKING STEPS FOR BETTER HEALTH

Gilles-Sweet Elementary Receives a \$5,000 Grant from Cleveland Clinic and the Community West Foundation for Youth Movement Contest

Students at Gilles-Sweet Elementary are taking steps to increase their daily movement and overall health. And it has certainly paid off.

A group of 5th grade students won first place in the 2018 Youth MOVement challenge sponsored by the Community West Foundation and the Cleveland Clinic Regional Hospital’s “Straight from the Heart” initiative. Students tracked their movement with a wearable technology device, a MOVband, during the month of February and averaged 10,969 moves per student, per day for a total of over 7 million total moves in the month (which equates to 3,600 miles for the month or 5.6 average daily miles).

The Community West Foundation/Cleveland Clinic Regional Hospitals awarded the students with the \$5,000 grant, which is intended to enhance the health and wellness for the participating class/school.

Physical Education Teacher Nathan Kull said the students plan to use the funds to build an indoor ga-ga ball pit, a popular fast paced, inclusive sport played in an octagonal ring.

The students at Gilles-Sweet Elementary were selected to participate in the program after teachers submitted a video outlining why the Straight from the Heart executive committee should select their class to participate in the competition, and what wellness initiative they intend to pursue.

Fairview High School science teacher Colleen Sliwinski, left, and NASA Glenn's Natural Resources Program Manager Bethany Eppig guide students in measuring phosphorous and nitrates in a water sample from Guerin Ditch. Photo courtesy of NASA

OUTDOOR LEARNING

Environmental Science students collaborate in research and restoration of local wetlands

A grant from the National Fish and Wildlife Foundation is enabling NASA Glenn, the Rocky River Watershed Council and high school students to restore wetlands adjacent to a tributary of Abram Creek.

Abram Creek drains 10.17 square miles of Berea, Brook Park, Cleveland and Middleburg Heights before discharging to the Rocky River's Main Stem just north of NASA-Glenn Research Center in Brook Park. The wetland complex associated with Lake Abram is the largest remaining contiguous wetland in Cuyahoga County.

Students from the Fairview High School Environmental Science class came to NASA Glenn's Lewis Field to take a series of samples aimed at determining the makeup and quality of the water. Since 2016 the students have been working under the direction of the Rocky River Watershed Glenn's Natural Resources Program.

During their recent visit, students measured water quality parameters such as pH levels, dissolved solids, salinity and phosphorous. They will compare data collected before the restoration of the flood plain adjacent to Guerin Ditch (headwater tributary to Abram Creek) and after the restoration to see if water quality has improved.

Fairview Park High School science teacher Colleen Sliwinski said, "This is an amazing opportunity for career development and to experience what environmental professionals in the field do on a daily basis."

FHS students were featured on the cover of the May 2018 issue of NASA Glenn's AeroSpace Frontiers magazine.

Showcasing Innovation

The 2018 Innovation Challenge Student Showcase was an exhibition of student innovation, creativity, and application of the design thinking process through project-based learning. Students K-12 presented projects in the Fairview High School gym on May 10 for members of the community to see. Guests explored the amazing work students in grades K-12 had created, including work ranging from traditional art to robots and creative writing to coding.

Below: A student displays his clay-mation movie he created based on the book Mr. Popper's Penguins at the 2018 Innovation Challenge Student Showcase.

PERSONALIZED, PROJECT-BASED LEARNING

At the Fairview Park City Schools, every student has a pathway that makes sense to them and that is connected to their long term goals and aspirations. We strive to meet them where they are. The teacher's role becomes a facilitator of an experience so students can make meaningful progress. Personalized, project-based learning engages students and encourages collaboration and creativity while promoting authentic work and assessment.

FAIRVIEW ON STAGE

Stagecrafters bring classic and modern productions to life with theatre, art, and music

The Fairview Stagecrafters have a history that spans decades at Fairview High School. Countless performances over the years have featured the talent of student artists and performers.

Students in middle and high school have the opportunity to collaborate on set design, lighting, acting, and music for the performances which occur in the fall and spring.

This past school year, the Stagecrafters presented the adaptation of the classic novel "Little Women" in November, and the movie-turned-musical Shrek the Musical in April.

And when it comes to honoring student achievement in theatre, that's where the International Thespian Society comes in.

A dozen Fairview High School students were inducted as charter members of Troupe 8671 of the International Thespian Society.

"International Thespian Society allows Fairview High School to honor the achievements of students within the theater arts, as well as within the classroom," said Jessica Atwood, FHS Stagecrafters director. "The society provides numerous opportunities for students to expand and enhance their theater experience and offers scholarship opportunities for those students looking to grow their theater skill beyond high school."

Alumna Kristen Blodgette, '72, Broadway Musical Director, Visits Music Students at FHS

Kristen Blodgette, a 1972 graduate of Fairview High School, quickly found herself right back at home in the music department when she was in town and stopped by for an impromptu tour of her alma mater.

Ms. Blodgette has been a Broadway Musical Director, Supervisor and Conductor for composer Andrew Lloyd Webber for over 30 years, conducting/directing *The Phantom of the Opera*, *Cats*, *Evita*, and *Sunset Boulevard* (for which she directed a 40-piece orchestra, the largest orchestra on Broadway).

After graduating from FHS, she attended the Cincinnati Conservatory of Music. She moved to New York City at the age of 25 and began offering voice coaching

From Fairview to Broadway: Alumna Kristen Blodgette conducted a 'mini-master class' with chorale and chamber orchestra students during her recent visit to FHS.

and music lessons and then was hired to play keyboard in the national tour of *Cats* in 1984. Soon after, she took over as the Conductor/Music Director. She was then named the musical supervisor for one of the most world-renowned productions on Broadway — *Phantom of the Opera*.

She has supervised various international companies of *Phantom*, *Cats*, *Love Never Dies*, *Jesus Christ Superstar* and other Andrew Lloyd Webber productions.

Ms. Blodgette is a member of the Fairview Park City Schools Hall of Fame.

Annual Notices

Child Find:

The Fairview Park City School District is responsible for identifying children with disabilities from birth through age 22. The intent of Child Find is to increase awareness of disabilities and to provide a free and appropriate public education for all qualifying children. Areas of disability could include: hearing impaired, visually impaired, cognitively disabled, physically disabled, learning disabled, emotionally disturbed, autistic, traumatic brain injury, or speech/language disabled. If you have knowledge of a child who is disabled and not attending school or not receiving special education services; or if you are a parent who may have concerns about your child's development, please contact the Fairview Park Board of Education's Department of Student Services at 440-331-5500 ext. 1124.

Homelessness:

The Fairview Park City School District is committed to providing services to all resident families, including those that may be homeless. The district, in accordance with the McKinney-Vento Act, assures that all homeless children and youth have equal access to the same free and appropriate public education as children and youth who are not homeless and has developed policies to help remove barriers to the enrollment, attendance and success in school that homeless children and youth may experience. For more information, please contact the Board of Education at (440) 331-5500, ext. 1113, or visit www.fairviewparkschools.org.

Free or Reduced-Price Meals

Fairview Park City Schools announced its 2018-2019 program year policy for Free & Reduced-Priced Meals for students unable to pay the full price of meals or milk served under the National School Lunch and School Breakfast and After School Snack Program. Each school office and the central office have a copy of the policy, which may be reviewed by any interested party.

The Federal Income Eligibility Guidelines will be used for determining eligibility. Children from families whose annual income is at or below the Federal Guidelines are eligible for free and reduced-price meals. More information and applications are available online on our web site at www.fairviewparkschools.org.

Additional copies are available at the principal's office in each school. A complete application is required. Households which currently receive Special Nutrition Assistance Program Benefits (SNAP, formerly known as food stamps) or Ohio Works First (OWF) funds for a child must provide the child's name, the SNAP or OWF case number and signature of an adult household member on the application. Households which do not receive SNAP or OWF funds must provide the names of all household members, the last four digits of the Social Security Number, the amount and source of income received by each household member, (state the monthly income) and the signature of an adult household member. If any of this information is missing, the school cannot process the application. Please only fill out one application per household. If you would like to review the information regarding the entire program, please log on to our web site at www.fairviewparkschools.org and click on Food Services.

All children in households receiving benefits from Ohio SNAP, or Ohio TANF, are eligible for free meals. Foster children that are under the legal responsibility of a foster care agency or court are eligible for free meals. Children participating in their school's Head Start program are eligible for free meals. Children who meet the definition of homeless, runaway, or migrant are eligible for free meals.

Use one Free and Reduced Price School Meals Application for all students in your household. We cannot approve an application that is not complete, so be sure to fill out all required information. Return the completed application to: Gilles-Sweet Elementary School, c/o Diana Hill, 4320 West 220th Street, Fairview Park, Ohio 44126 For more information, call 440-356-3525, ext. 4120 or visit www.fairviewparkschools.org.
